

Message In A Bottle

Instruction sheet

Four Simple Steps:

1. Take an empty water bottle and shake it out to make sure it is relatively dry. If you use a juice or sports drink bottle rinse it out first.
2. Write your message of 5 words to the troops on a slip of paper. Ballpoint pen or something waterproof is best. Make sure your writing is large and clear, as we will try to read your words from the outside of the bottle.
3. Insert the paper into the bottle. It may be easier to gently crease the paper lengthwise to make it easy to insert.
4. Put the cap on the bottle and remove the label. You're done!

Now get 5 or 50 of your friends to do the same. Find a drop off location and turn your bottle in. We will record your words into a database, and prepare the bottle for inclusion in our Wall of Light sculpture.

Keep viewing www.messageinabottlejax.com for updates on the current message and bottle count.

Thank you for participating!
